The Purpose of Business – Dr. Peter Drucker

“If we want to know what a business is, we have to start with its purpose. And the purpose must lie outside the business itself. In fact, it must lie in society, since a business enterprise is an organ of society. There is only one valid definition of **BUSINESS PURPOSE: TO CREATE A CUSTOMER**. The customer is a foundation of a business and keeps it in existence. The customer alone gives employment. And it is to supply the customer that society entrusts wealth-producing resources to the business enterprise”.

Because it is the purpose to create a customer, any business enterprise has two – and only two – basic functions: **MARKETING & INNOVATION**. These are the entrepreneurial functions. **MARKETING** is the distinguishing, the unique function of the business.

Action Point: Find out what needs your customers want fulfilled today. Determine how well your products are meeting the needs of your customers.

THAT IS THE PURPOSE OF BUSINESS!!

What is a Startup?

A Startup is a human institution (organization) formed to:

and then

Become **SUSTAINABLE** through the discovery of a
Profitable, Repeatable and **Scalable Business Model**

Your immediate Goal is acquire Customers and, in doing so, transition your Product or Service from Hypotheses to Facts, reducing Risk as fast as possible!
