Family Friends Relatives only go so far
Less VC capital; mainly later stage
Junior Public Market – not easy to do (great if you want to be big!)
What about Crowdfunding? (Product vs Equity)
What about angels? Great but <1% of population

The Law (BC Securities Comm)

It is ILLEGAL to sell shares to anyone unless...

you use a PROSPECTUS & are a REGISTERED dealer

OR.....

use an "EXEMPTION" to the PROSPECTUS & REGISTRATION Requirement WHY???

Why not have the BC Lotteries Corp be the regulator?

Examples: Apple iPod, Starbucks (see D Thomas' deck)

Positioning Example: Apple iPod

- For mobile, high-income individuals
- who need a way to listen to their entire music collection in different settings
- the Apple iPod is a small, portable digital music player
- that offers elegance of design, the ability to store an entire music collection, and easy purchasing of new digital music.
- Unlike flash mp3 players (Creative, Rio, etc),
- the product stores an entire music library and is integrated into a service to purchase new digital music (iTunes)

The Investor Pitch

It's easy! Just fill in the blanks:

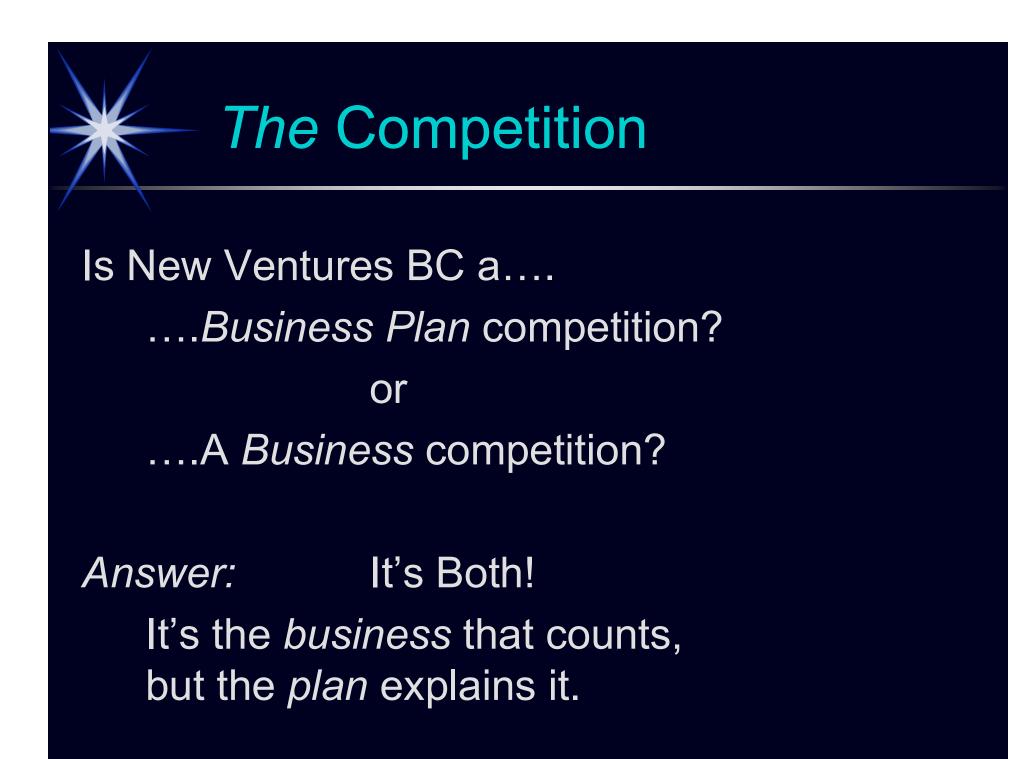

We, (Company)_____, require (\$\$)_____ for (what)_____ in return for ___% of the Company. Our plan is to be acquired by (name some):______ in ___(year) for \$____million to give you an IRR of ___%.

Example:

We, <u>Ace Corp</u>, require \$500K mainly for production tooling & hiring sales staff in return for 30% common shares. Our plan is to be acquired by Polycom for \$15M in 2014. This will give you a 5X return in 5 years (ie IRR=38%).

Business Plan & Model

A plan is better than a forecast

- The plan shows what you will achieve and how you will get there
- The NVBC questions challenge you to think about what you are planning to do
- Tools, such as the Business Model Canvas*, help you figure it out

(Kirk's deck: http://www.newventuresbc.com/wp/wpcontent/uploads/2016/04/Value-Pricing-NVBC-14-06-27.pdf)

Questions: Round #2 and #3

ROUND #2 (6 pages) ROUND #3 (8 pages) **1.Product 2.Intellectual Property** 3. Technology Development + Technical Team **4. Business Plan Status** + Market Scope & Need 5.Market 6.Distribution 7.Competition + Barriers to competition 8.Team 9. Financial (basic) + 18-36 months

Question #1: PRODUCT

What is it?

Product or Service? NOT the technology

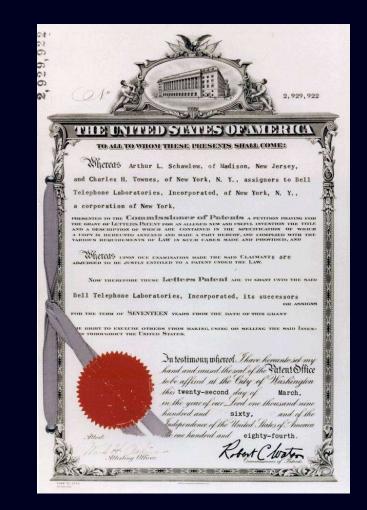

How will revenue be generated?

E.g. selling a gadget, renting, licensing, etc

Question #2: Intellectual Property

What is it? (Everyone has it)

Patentable? Copyright? Trade Secret? Just an idea? Know-How? Processes?

Question #3: <u>TECH DEVELOPMENT</u>

STAGE of DEVELOPMENT?

Idea? Prototype? Beta model? Production?

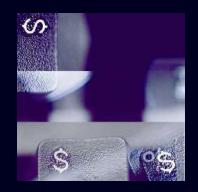

And...mention TIME FRAME

Question #4: Bus Plan Status

How much background research done? i.e. pertaining to business viability

What still needs to be done? e.g. checking out costing, competition, etc

Question #5: MARKET

The most important question! Who will buy it? (customers!) Why will they buy it? Potential? How much can you sell? TAM = Total Available Market DO NOT SAY: 1% of \$1 Billion! INSTEAD, READ: Regis McKenna's Marketing is Everything (Harvard Bus) Check Dave Thomas' slides: http://www.newventuresbc.com/resource/product-market-fit/

Question #6: DISTRIBUTION

How will they buy it?

Distribution channels (and margins)

Strategic Partners? OEMS? Chains?

Question #7: <u>COMPETITION</u>

There's no such thing as "no competition"

Uniqueness? Substitutes? Differentiators? Barriers?

-Question #8: THE TEAM

STRENGTHS

Participants (now & planned) Advisors (now & planned) Board Members (now & planned)

WEAKNESSES Know your shortcomings!

Question #9: FINANCIAL

It's all about the money!!

How much MONEY do you need? (e.g. to positive cash-flow milestone)

How much have you raised (from?)

How much have you spent?

5-year projections? Beware the hockey stick sales curve: 0.5% of startups achieved \$50M in 6 years!

Or This?

So why do deals get funded?

- Because the people behind them are:
- credible (domain knowledge, esp. market)
- realistic (show how they can achieve goals)
- aware of what they don't know (use experts)
- not alone (had a team)
- in control (leadership, contingencies)
- But mainly because:
- they are liked! (it's really a courtship!)

A Few Final Tips:

- don't make the "only 1% of market" claim (it's the kiss of death!)
- don't compromise by saying what you think investors want to hear
- don't be given to hyperbole; confident humility can go a long way
- show leadership!!

 (the reasons for failure always point to lack of leadership)
- never procrastinate!
